

Alec Arroyo Badilla

San José, Costa Rica - (+506) 8824-1468 - alec.arroyo@ucr.ac.cr - [MyPortafolioLink](#)

Fourth-year student in Computer Science and Multimedia Technology Engineering. As a Full Stack Developer, I have a strong focus on UX/UI and specialize in building modern and functional web solutions using React, Laravel, and design tools such as Figma, while working under agile methodologies (Scrum) and tools like Jira. I also have solid knowledge of SQL and relational database management..

Featured Projects:

Puramente – Gamified Learning Platform

- **Developed a web application** focused on transforming traditional education through gamification dynamics for students.
- **Programmed three interactive video games in JavaScript**, integrated as educational tools within the platform.
- **Implemented an intelligent chatbot using the Google Gemini API** for student assistance, developed in the backend with PHP (Laravel) following the MVC architecture.
- **Designed the UI and UX**, prioritizing accessibility and visual engagement for a younger audience.
- **Technologies:** : PHP (Laravel), JavaScript, React, Tailwind CSS, API de Google Gemini.

AsoWheel – Enterprise Raffle Application

- **Full Stack development** of a web platform for randomly selecting winners through an interactive spinning wheel.
- **Built a REST API** with JWT authentication and SQL Server database using Entity Framework Core, with automated deployment via GitHub Actions.
- **Designed the UI/UX** in Figma and implemented it in the app with dynamic animations to increase *engagement* during the raffle.
- **Technologies:** React, JavaScript, Tailwind CSS, ASP.NET Core 8, SQL Server, Entity Framework Core, JWT, GitHub Actions, Figma.

Education :

- Bachelor's Degree in Computer Science and Multimedia Technology Engineering – University of Costa Rica (2023 – Present)
- **Recognition:** Academic Excellence Scholarship (Weighted GPA: 9.94)

Languages

- Advanced English - (Nivel C1)
 - Spanish (Native)
-

Skills:

- **Soft Skills:** Effective communication, adaptability, fast learning, and empathy.
- **Frontend:** JavaScript (ES6+), TypeScript, React, Tailwind CSS, HTML5/CSS3.
- **Backend:** PHP (Laravel), C# (ASP.NET).
- **Databases:** SQL (Oracle APEX, MySQL, Microsoft SQL Server).
- **UX/UI Design:** Figma, Adobe Creative Cloud, Prototipado, User Testing.
- **Extras:** Java, Typescript, Playwright.
